### 2006 Murray City Police Department Annual Report

Chief Peter Fondaco

Message from the Chief

January 19, 2007

Mayor Daniel C. Snarr Murray City Municipal Council Murray City Citizens

On behalf of the dedicated men and women of the Murray City Police Department, I am pleased to submit the 2006 annual report. This report contains information related to our department organization, our services, our crime statistics and our accomplishments.

The Mission of the Murray City Police Department pledges to foster professional law enforcement services, providing crime prevention programs, successful patrol techniques, and effective traffic enforcement, allowing citizens and businesses alike to feel a sense of security in their homes and work place. I am proud of the dedicated, professional members of the department, and the efforts they make to accomplish this Mission. Overall, 2006 was a productive and progressive year for the police department with little increase in crime. We can attribute this to a superlative workforce.

The Murray Police Department works closely with the community providing quality programs that adapt to changing community needs. The assistance we receive from the community with an emphasis towards community oriented policing and long term problem solving are partially responsible for our success in making Murray City a safer place to live and work.

It is an honor to lead the men and women of the Murray City Police Department who provide the quality services that Murray City expects from its police department. We thank the citizens for their continued support and community service efforts.

Sincerely,

Peter A. Fondaço Chief of Police

### 2006 New Patrol Officers Swearing In Ceremony October 18<sup>th</sup>

All sworn together

From Left: Officers Conder, Verkler, Ketcheside, and Wathen

### 2006 Swearing In on July 18th Promotions

From Left: Sgt. Christiansen, Lt. Roberts, Sgt. Halford

Lt. Roberts began his career with the Murray Police Department August, 1993. He was assigned to the Criminal Division in 1998 where he served as a Detective for two years prior to being promoted to Sergeant in 2000. He served as a Patrol Shift Supervisor for five years, and was then assigned again to the Criminal Division as a Sergeant. He served in this capacity until he was promoted to Lieutenant in 2006. Lt. Roberts has been a member of the SWAT Team since 1993 and currently is the SWAT Supervisor. He currently serves as the Commander over the Criminal Division.

Sgt. Halford was hired May 1, 1990. During his tenure with the Police Department he has served as a detective and also a COP (Community Oriented Policing) Officer. While assigned to the COP unit, Sgt. Halford served as interim supervisor for three months for which he received a Division Commander Award. He is a long standing member of the SWAT Team. He currently serves as a Patrol Shift Supervisor.

Sgt. Christiansen has been a member of the Murray Police Department since October, 1990. During his career he has served in the Metro Gang Unit and the Criminal Division. He achieved Master Officer status in 2002. Sgt. Christiansen is a member of the SWAT Team serving as Assistant Team Leader. He is the senior firearms instructor and supervises six firearms instructors. He currently serves as a Patrol Shift Supervisor.

### 2006 RETIREES

Lieutenant Robert Rigby 8/2/82 – 7/31/06

Sergeant Lauren Gibbs 8/12/85 – 12/29/06

Detective Rob Hall 4/29/86 – 7/20/06

Murray City

Police Department

2006

Cadet Program

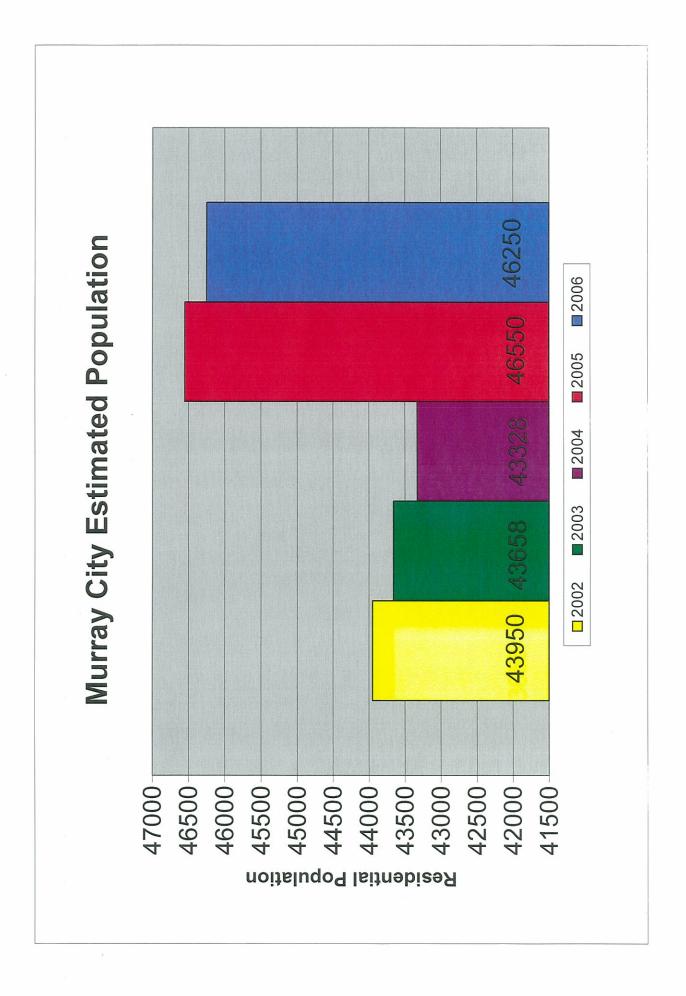

### **Murray City Police Cadet Program**

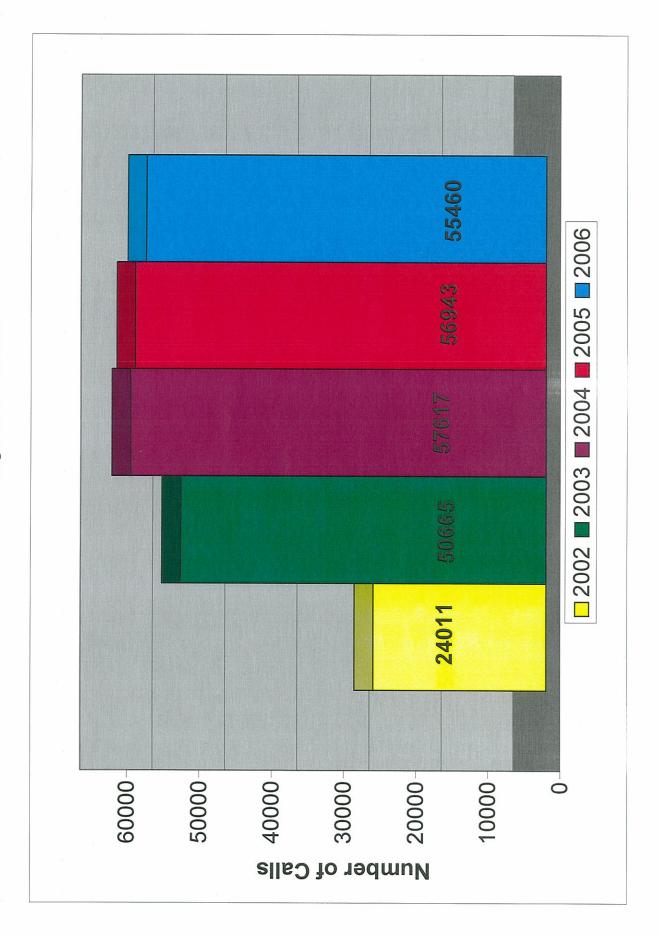

The Murray City Police Department employs 20-25 high school students as police cadets. These students are selected from the two high school's located in Murray City. The Cadets main function is to provide support services to the police department and to various other departments within the City of Murray. Along with their clerical and data entry duties, they work at special events doing traffic and crowd control, answer questions at crime and safety fairs, and do property checks at the homes of vacationing Murray residents.

### Internet Crimes Against Children Taskforce (ICAC)

The growth of technology has changed our lives dramatically. Computers were viewed as a luxury or even an extravagance 30 years ago. We relied on television, newspapers, and radio as primary sources of news and information. Cables, modems, and online services were virtually nonexistent.

Unfortunately, criminals are also using modern technology—to prey on innocent victims. Computers and the Internet have made the predator's job easier. Historically, child predators found their victims in public places where children tend to gather—schoolyards, playgrounds, and shopping malls. Today, with so many children online, the Internet provides predators a new place—cyberspace—to target children for criminal acts. This approach eliminates many of the risks predators face when making contact in person. (http://www.ojp.usdoj.gov)

The Internet is the most powerful information tool ever created and can enhance a child's education like no other resource. However, its very nature creates the potential for danger.

A recent survey revealed that one in five teens has received an unwanted online request to engage in sexual activities or provide sexual information. One in four has been exposed to online pornography.

Two-thirds of Utah households have a computer-more than any other state in the country. Almost half of the homes in Utah have Internet access.

In November of 2006 the Murray City Police Department joined forces with the Utah Attorney General's Office by assigning two detectives, part time, to work with the Internet Crimes Against Children Task Force (ICAC).

ICAC is a multi-jurisdictional task force that investigates and prosecutes individuals who use the Internet to exploit children. The task force is funded by a grant from the Office of Juvenile Justice and Delinquency Prevention and administered through the Utah Attorney General's Office. In the past year local ICAC taskforce members have arrested multiple predators within the boundaries of Murray City. We look forward to working in this task force to make Murray City a safer place for our children.

### 2006 Major Detective Cases

### Aggravated Domestic Assault

On June 24, 2006 officers responded on a domestic assault in progress. Multiple witnesses noticed a man brutally beating a woman in the parking lot of a church. These citizens's detained the suspect and called police. The victim in this case was flown by helicopter to the hospital due to her extensive injuries. The suspect was the victim's husband. He was arrested for aggravated sexual assault and two counts of aggravated assault (Domestic Violence).

### Homicide

On July 31, 2006 officers responded to a call of a two year old child in full arrest. The child was transported to Primary Children's Hospital where he was pronounced dead. After further investigation from detectives, it was determined that the child had been murdered by the live-in boyfriend of the victim's mother. The suspect was arrested on charges of Criminal Homicide, Child Abuse Homicide.

### Homicide

On September 21, 2006, the Detective Division was called to investigate a gang related homicide. It was determined through witness interviews that there were two suspects involved in the shooting. During the investigation it was revealed that the suspects in this case had extensive violent criminal histories and may have been involved in other homicides.

Detectives worked with multiple jurisdictions including the Metro Gang Unit, West Valley City Police, JCAT, DEA, and the US Marshals Office to apprehend the suspects. Both suspects were arrested on charges of criminal homicide, murder, and purchase, transfer, possession or use of a firearm by a restricted person.

### Aggravated Assault

On October 19, 2006 officers responded on a shooting in progress in the parking lot of an apartment complex. The victim was shot one time in the chest. The victim was transported to the hospital and survived. The suspect was identified and charges were filed for attempted criminal homicide, murder. A \$100,007.00 warrant was issued for the suspect's arrest. It is believed the suspect left the state the same day of the shooting.

### Sex Offender Registering Agency

The Sex Offender Registration Program has been in existence since 1987. In the beginning the program was enacted as a tool to assist law enforcement agencies in their investigation of sexual offenses and sexual offenders. It was also developed to provide the law enforcement community a central repository, where detailed information on each registrant could be obtained. This is still one of its purposes.

In an effort to provide public safety and community protection, the Utah Sex Offender Registration Program is evolving into an inter-agency cooperation. With the ever increasing population of registered sex offenders, and the public's awareness of the use of the registry information, the Murray City Police Department recognized the need to join with the Department of Corrections, and became a registering agency in September of this year.

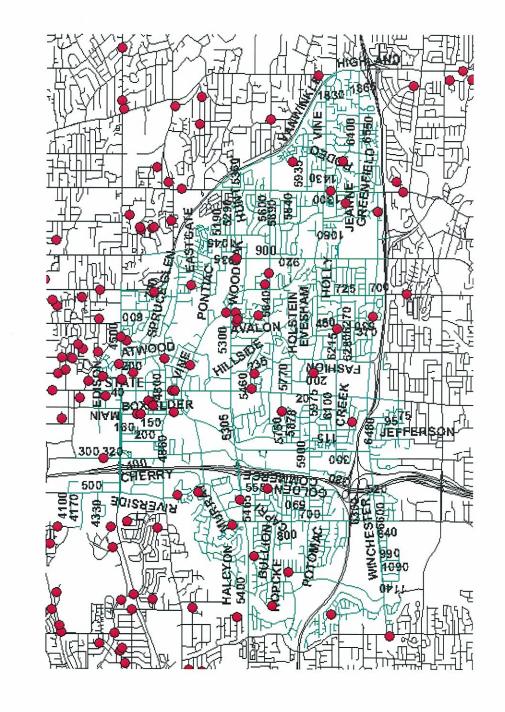

The Murray City Police Department Sex Offender program is under the direction of the Chief of Police and is administered by the Detective Division's Crimes Against Persons Unit. Murray Detectives, in conjunction with The Department of Corrections, monitor all sex offenders currently living within the boundaries of Murray City.

Currently there are 73 registered sex offenders living within the boundaries of Murray City. Murray Police Detectives make periodic visits to these offenders to ensure that they are in compliance with state and federal registry laws. Detectives also retain information on over 100 registered sex offenders just outside the Murray City boundaries.

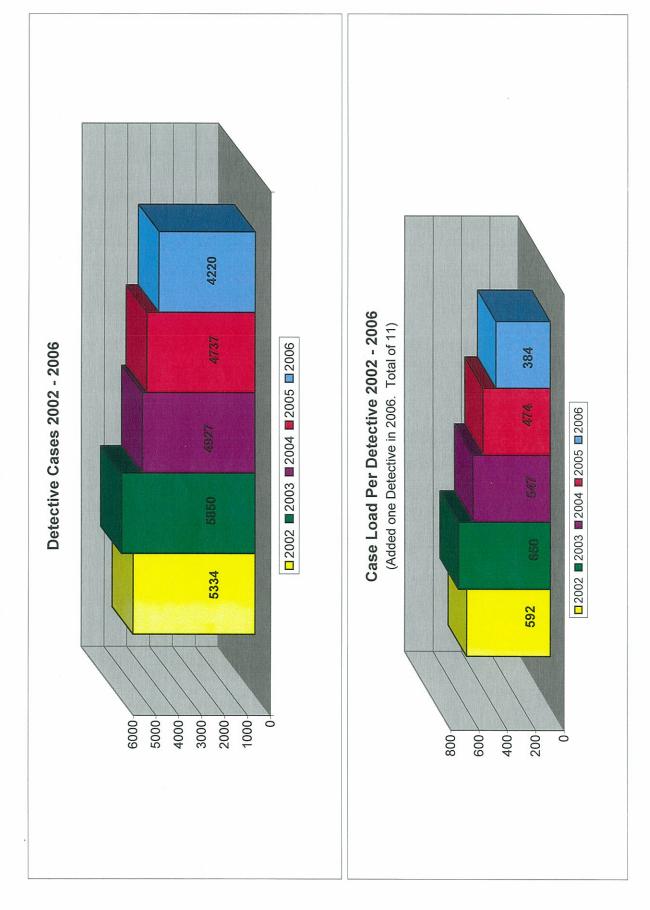

All registered sex offender information is stored in the Murray City Police Department's computer files. This allows any officer in the department access to sex offender information in the event that a crime is committed where a registered sex offender may be a potential suspect. Sex offender addresses are also entered into a computer generated pin mapping system. This allows officer to set up geographical maps showing the location of registered sex offenders.

Since the Murray City Police Department is now a registering agency, sex offenders that come into Murray City and are required to register, may do so at the Police Department. This enables the Department to monitor transient sex offenders who do not live within our boundaries, but are visiting from other states.

Grades 1-4 receive 3 weeks with 15 minutes each week of instruction 5th Grade recieves 10 weeks with 1 hour each week of instruction 7th Grade recieves 10 weeks with about 50 minutes each week of instruction

DARE stands for "Drug Abuse Resistance Education". This 10 week program is taught by specially trained Police Officers. Fifth or sixth grade students, with the cooperation of their teachers and parents, learn to identify and resist the social pressures to use dangerous drugs. To become DARE instructors, officers receive intensive training to provide them with effective teaching skills. Their selection is based upon human relations and communication skills.

DARE was originally developed by the Los Angeles Police Department in cooperation with the Unified School District in 1983. Conceived on the premise that prevention is the only long-term answer to our drug problem. This innovative program is proving to be effective and is now taught in schools in all 50 states and several foreign countries.

The DARE program is positive and substantive. It avoids scare tactics and relies on accurate information and a straight-forward approach. Group discussions and role playing are used as tools in the DARE program.

### **DARE Goals and Objectives**

- 1. Students will understand physical, emotional, social, and legal risks and effects of alcohol, tobacco, marijuana, and inhalants on their developing brains and bodies.
- Students will compare and contrast the normal beliefs of peers in their classroom with the national data about teen use of ATOD (alcohol, tobacco and other drugs) and where dissonance emerges, revise their understandings/beliefs about how many peers use ATOD.
- Students will expand their knowledge about a variety of positive things to do in their school and community (pro-social behavior) that do not involve the use of ATOD and will choose to engage in those activities rather than use ATOD.
- 4. Students will understand what refusal strategies, sound communication skills, and assertiveness and resistance skills are and will be able to apply them in developmentally appropriate ways in a variety of life-like situations

### **DARE 2006 Year End Report**

### **CORE Program 5th Grade**

The 5th\6th grade Core program content is organized into ten 45-60 minute lessons taught by a certified DARE Instructor. The lessons offer a variety of interactive, role playing and cooperative learning activities which are designed to encourage students to solve problems of major importance in their lives. The following are the objectives for each of the 10 core lessons:

LESSON 1- Purposes and Overview of the DARE Program.

LESSON 2- Tobacco and You.

LESSON 3- Smoke Screen

LESSON 4- Alcohol and You

LESSON 5- The Real Truth

LESSON 6- Friendship Foundations

LESSON 7- Putting it Together

LESSON 8- Personal Action

LESSON 9- Practice! Practice! Practice!

LESSON 10- Special Event (Graduation)

### 2006 Fatal Traffic Accident Summary

One Fatal Traffic Incident with Three Fatalities

On early Christmas Eve, 12-24-06 at about 2:30 in the morning a family of six was on their way home from a Christmas party. At the intersection of 5400 South and 700 West a drunk driver ran a red light and smashed into their car. Three members of the family died on scene while others were transported by medical helicopter with serious injuries.

Immigration and Customs Enforcement identified the drunk driver as a Mexican National here illegally. He faces a list of charges including vehicular manslaughter, driving under the influence, and driving without a license.

The family had previously lost five children. Twins were born prematurely and three other children were born with brain tumors.

Metro Gang Unit

**Analysis** 

### Salt Lake Area Gang Project/ Metro Gang Unit

Murray City is an active participant in the Salt Lake Area Gang Project.

The Salt Lake Area Gang Project is a federally funded, multi-jurisdictional project which involves the following agencies:

Bureau of Alcohol, Tobacco, Firearms and Explosives

Federal Bureau of Investigations

Utah Div of Investigation

Murray City P.D. Utah Dept. of Corrections

Midvale City P.D.

US Div of Youth Corrections

Salt Lake City P.D. US Attorney's Office

Salt Lake County Sheriff's Office US Marshal's Service

Sandy City P.D. West Jordan P.D.

South Jordan P.D. West Valley P.D.

Murray City Assistant Chief Craig Burnett is the chair person in charge of the Governing Board which oversees administrative roles of the Salt Lake Area Gang Project. Detective Richard Stone is a full-time Detective assigned to the Salt Lake Area Gang Project. Detective Stone also is the Detective in charge of the Tattoo Removal Program, a program that helps ex-gang members get their gang related tattoos removed. This program involves a partnership with the University Of Utah Hospital and is one of three programs in the United States. Detective Stone is also a United States Special Deputy, and a member of the Joint Criminal Apprehension Team (JCAT). All of these programs are also partnered with the Salt Lake Area Gang Project.

The goals and objectives of the Salt Lake Area Gang Project are to identify gang activity, prevent gang activity, and provide intelligence, along with investigative assistance to law enforcement agencies. The project also educates the public about gangs and the destructive nature that is a byproduct of gang lifestyles.

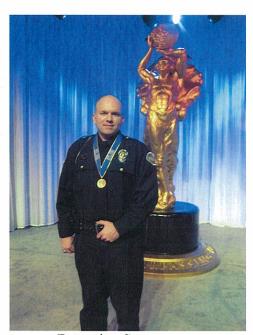

Gang Unit Detectives are dedicated to aid Salt Lake area law enforcement through the following practices:

- Suppression and street enforcement
- Collecting intelligence through contacts with gang members
- Assisting local agencies with on-going gang investigations
- Providing presentations to community groups
- Follow-up work on gang-related cases
- Answering law enforcement inquiries about gang members
- Publishing a weekly, law enforcement only, newsletter

During 2006, some of the Salt Lake Area Gang Unit's contributions to Murray City include:

- Over fifteen arrests of suspects residing in Murray who committed violent felonies throughout the Salt Lake County area.
- Assisting Murray City with a gang related homicide investigation. This included the use of six additional gang unit detectives, access to Federal agents and equipment supplied by the Federal Government, and assistance with the arrest of the suspects involved in the homicide.
- Investigation of Graffiti crimes discovered and identified by gang unit Detectives
- Four presentations given to groups of educators at schools within the Murray School District. For many of the educators, this was their first formal training about gangs, and what to look for when identifying gang members.
- Detective Stone and other members of the Salt Lake Area Gang Project fielded numerous calls including several callouts to assist officers of the Murray City Police Department with gang information and identifications.

Detective Richard Stone was honored as the winner of the 2006 Best of State award in the category of Community Development and the subcategory of Public Safety Officer. Murray City Power is the only other Murray City Department to have been honored with a Best of State award. Detective Stone is much honored to have been given the opportunity to further serve his department and the citizens of Murray while being involved in the Salt Lake Area Gang Project.

Detective Stone
